

## Aerial Data Service

8301 E. 51st St., No. 100  
Tulsa, OK 74145  
918-622-4144  
www.aerialdata.com

Celebrating nearly 50 years in the geospatial industry, Aerial Data Service (ADS) is the largest full-service photogrammetric firm in Oklahoma. With offices in Tulsa, Okla., and Austin, Texas, ADS is geographically situated to provide aerial photography, surveying, digital mapping and LiDAR services to hundreds of engineering firms and governmental agencies across the country.

ADS is a 100 percent

**Woman-Owned Small Business** and is **DBE certified** in Oklahoma, Texas, Arkansas, California, Kansas, Louisiana, Mississippi, Missouri and New Mexico. In addition, the company is certified as a **Historically Underutilized Business Zone (HUBzone)** business by the Small Business Administration.

ADS owns all its own equipment and has diverse software packages to accommodate deliverables to its large

client base. The company can perform all functions of its surveying and mapping projects in-house. Therefore, ADS has complete responsibility for quality control and timeliness of its work. The company can guarantee an understanding of the project and make changes as required to satisfy the needs of an ongoing project, as well as deliver the expected work products, on time and within budget.
